*** G4Exception : GeomNav1002
      issued by : G4Navigator::ComputeStep()
Stuck Track: potential geometry or navigation problem.
  Track stuck, not moving for 10 steps.
  Current  phys volume: 'phyPEEK'
   - at position : (372.8182351871817,-40.9349302460274,513.1401039418586)
     in direction: (0.2384895550748417,-0.1611025497903386,0.9576892505250623)
    (local position: (372.8182351871817,-40.9349302460274,513.1401039418586))
    (local direction: (0.2384895550748417,-0.1611025497903386,0.9576892505250623)).
  Previous phys volume: 'World'

  Likely geometry overlap - else navigation problem !
   *** Trying to get *unstuck* using a push - expanding step to 1e-07 (mm) ...      Potential overlap in geometry !

*** This is just a warning message. ***
